ORIGINAL CONTRIBUTIONS

245 Physical Activity and Incidence of Hypertension in College Alumni. Ralph S. Paffenbarger, Jr. (Stanford U. School of Medicine, Stanford, CA 94305), Alvin L. Wing, Robert T. Hyde and Dexter L. Jung

258 Cancer Incidence and Reuse of Drinking Water. Shirley A. A. Beresford (V.A. Medical Center, Durham, NC 27705)

281 Frequency of Non-hormonal Contraception Around Conception and Association with Congenital Malformations in Offspring. Michael B. Bracken (Yale U. School of Medicine, New Haven, CT 06510) and Kathy Vita

291 Perceived Health and Mortality: A Nine-year Follow-up of the Human Population Laboratory Cohort. George A. Kaplan (Human Population Laboratory, Berkeley, CA 94704) and Terry Camacho

305 Spontaneous Abortion and Induced Abortion: An Adjustment for the Presence of Induced Abortion When Estimating the Rate of Spontaneous Abortion from Cross-Sectional Studies. Ezra Susser (Sergievsky Center, Columbia U., New York, NY 10032)

309 A Comparison of Primary and Secondary Homicides in the United States. Janine Jason (CDC, Atlanta, GA 30333), Lilo T. Strauss and Carl W. Tyler, Jr.

320 The Impact of Marital Status on Survival After an Acute Myocardial Infarction: A Population-based Study. Vijay Chandra, Moyses Szklo (The Johns Hopkins U. School of Hygiene and Public Health, Baltimore, MD 21205), Robert Goldberg and James Tonascia

326 Artificial Sweeteners and Lower Urinary Tract Cancer: Hospital vs. Population Controls. Debra T. Silverman (NCI, Bethesda, MD 20205), Robert N. Hoover and G. Marie Swanson

344 Extensions to Multivariate Normal Models for Pedigree Analysis. II. Modeling the Effect of Shared Environment in the Analysis of Variation in Blood Lead Levels. John L. Hopper and John D. Mathews (Royal Melbourne Hospital, Victoria 3050, Australia)

356 Estimation of the Distribution of Age at Natural Menopause from Prevalence Data. M. D. Krailo (Dept. of Preventive Medicine, U. of Southern California, Los Angeles, CA 90033) and M. C. Pike

Continued on Cover 2
Assessing the Heterogeneity of Disease Spread Through a Community. Niels G. Becker (Dept. of Mathematical Statistics, La Trobe U., Bundoora, Victoria 3083, Australia) and John L. Hopper

LETTERS TO THE EDITOR

375 Re: "Should Dead Cases Be Matched to Dead Controls?" Jess R. Kraus
375 Re: "An Investigation of the Relationship Between Stomach Cancer and Cerebrovascular Disease: Evidence For and Against the Salt Hypothesis." J. V. Joossens and J. Geboers
376 The Authors Reply. Paul K. Whelton and Peter Goldblatt
377 An Exact Method for Calculating a Confidence Interval of a Poisson Parameter. Paul G. H. Mulder
377 Re: "Menarcheal Age and Spontaneous Abortion: A Causal Connection?" M. J. Mayaux, A. Spira and D. Schwartz
378 The Author Replies. Knut Liestøl

PRINCIPLES OF EPIDEMIOLOGY
A Self-Teaching Guide
LEWIS H. ROHT, BEATRICE J. SELWYN, ALFONSO H. HOLGUIN, JR. and BOBBE L. CHRISTENSEN

This self-teaching guide to epidemiology consists of a series of problem-solving exercises designed to introduce the reader to the principles and methods of epidemiology, rather than the epidemiology of specific diseases. It explains and illustrates epidemiological principles and concepts and provides the reader with an opportunity to practice the application of these principles in a logical sequence. The volume can be used by itself or as a supplement to standard textbooks.

1982, 512 pp., $24.50 (paperbound)
ISBN: 0-12-593180-8

Journal subscriptions are for the calendar year and are payable in advance. Prices include postage, handling, and air freight where applicable. Individuals may request information regarding personal subscription rate. Please direct all orders and inquiries to the Journal Subscription Fulfillment Department. On book orders, send payment with order and save postage and handling. All prices are in U.S. dollars and are subject to change without notice.

Academic Press Journals of interest to epidemiologists...

PREVENTIVE MEDICINE
EDITOR-IN-CHIEF: ERNST L. WYNDER

As an international medium for the publication of original papers on applied research into all aspects of disease prevention, this journal welcomes papers from investigators in any scientific discipline whose findings contribute to the reduction of disease.

Volume 12, 1983, 6 issues
Annual subscription rate, U.S.A. and Canada: $110.00
All other countries: $127.00

PUBLIC HEALTH
EDITOR: J. S. ROBERTSON

Public Health publishes papers on all academic and practical aspects of preventive and community medicine. It will be of interest to community physicians and to medical officers engaged in the clinical aspects of preventive and social medicine.

Volume 97, 1983, 6 issues
Annual subscription rate: $95.00

ACADEMIC PRESS, INC.
A Subsidiary of Harcourt Brace Jovanovich, Publishers
New York • London • Toronto • Sydney • San Francisco
111 FIFTH AVENUE, NEW YORK, N.Y. 10003
The three-week summer program in epidemiology will be hosted again by the University of Massachusetts at the Amherst campus in western Massachusetts. The program includes methodologic and substantive courses for those seeking a review of recent developments in epidemiologic thinking. The following courses will be offered:

- **Theory & Practice of Epidemiology, I**  
  Philip Cole, U. of Alabama/Birmingham
- **Theory & Practice of Epidemiology, II**  
  Kenneth Rothman, Harvard U.
- **Biostatistics for Epidemiologists**  
  Margaret Drolette, Harvard U.
- **Multivariate Methods in Epidemiologic Analysis**  
  David Kleinbaum, U. of N. Carolina  
  Stanley Lemeshow, U. of Massachusetts
- **Epidemiology of Reproductive Obstetrical & Congenital Disorders**  
  Jennifer Kelsey, Yale U.  
  Gertrud Berkowitz, Mt. Sinai Med. Ctr.
- **Environmental & Occupational Epidemiology**  
  Carl Shy, U. of N. Carolina
- **Biomedical Writing**  
  Eli Chernin, Harvard U.
- **Principles of Clinical Epidemiology**  
  Noel Weiss, U. of Washington
- **Cancer Epidemiology**  
  Dimitrios Trichopoulos, U. of Athens
- **Cardiovascular Disease Epidemiology**  
  Suzanne Haynes, U. of N. Carolina
- **Epidemiology of Infectious and Immune Diseases**  
  Richard Kaslow, NIAID  
  Frank Polk, Johns Hopkins U.
- **Applications of Epidemiology to Health Services**  
  Hal Morgenstern, Yale U.
- **Case Studies in Occupational Epidemiology**  
  Carl Shy, U. of N. Carolina
